

Unit Swim Check Procedures

The swim classification of individuals participating in a Boy Scouts of America activity is a key element in both Safe Swim Defense and Safety Afloat. The swim tests should be renewed annually, preferably at the beginning of each outdoor season. Traditionally, swim classification tests have only been conducted upon arrival at summer camp. However, there is no restriction that this be the only place the test is conducted. It may be more useful to conduct the swim classification prior to a unit's arrival at summer camp.

Adopted for the Knox Trail Council's Camp Resolute
for the 2011 Camping Season.

The Swim Check Administrator MUST be approved by the Knox Trail Council prior to the administration of the Unit Swim Check

Special Note: Although swim tests may be conducted prior to summer camp, the aquatics director is expected to review or retest any Scout or Scouter whose skills appear to be inconsistent with his or her classification. Additionally the aquatics program director is authorized to retest any Scout or group of Scouts when he or she is reasonably concerned that pre-camp swim tests were not properly administered.

Purpose of this Policy

The Knox Trail Council has adopted the Unit Swim Check policy to promote the purposes of BSA aquatics.

The BSA aquatics program has five basic objectives.

- To give youth self-confidence and skill in aquatics
- To instruct youth in self-preservation, the care and use of aquatics equipment and rescue methods
- To promote aquatics recreation
- To develop physical strength and coordination
- To aid units in planning and conducting a safe year-round aquatics program
-

The unit swim check policy has been established to facilitate the check-in process at summer camp.

The unit swim check is NOT accepted at summer camp if a Scout is enrolling in an aquatics merit badge.

If a Scout is enrolling in an aquatics merit badge, they must take the swim test at summer camp under the direction of the summer camp Aquatics Program Director. This is to insure the safety of all Scouts involved in the merit badge class. Participating in aquatics merit badges exposes the Scout to additional risks not normally involved in recreational swimming and boating.

Administration of the Swim Test

All persons participating in BSA Aquatics are classified according to swimming ability. The classification tests and test procedures have been developed and structured to demonstrate a skill level consistent with the circumstances.

The BSA Aquatics swim test classifies Scouts and Scouters into three swimming ability groups. The three swimmer ability groups are swimmer, beginner and learner.

- The swimmer test demonstrates the minimum level of swimming ability required for safe deep-water swimming.
- The beginner test demonstrates that the Scout is ready to learn deep-water skills and has the minimum ability required for safe instructional and recreational activity in a confined swimming area in which shallow waters, sides, or other support are less than 25 feet from any point on the water.
- All Scouts and Scouters who do not complete the beginner test or who choose to not participate in any test are classified as learners. All learners should be encouraged to take swim lessons to improve their swimming ability and become comfortable participating in water activities.

The BSA Swimmer and Beginner Test

• Swimmer Test

Jump feet first into water over the head in depth, level off and begin swimming. Swim 75 yards in a strong manner using one or more of the following strokes: sidestroke, breaststroke, trudgen or crawl; then swim 25 yards using an easy, resting backstroke. The 100 yards must be completed in one swim without stops and must include at least one sharp turn. After completing the swim, rest by floating.

• Beginner Test

Jump feet first into water over the head in depth, level off, swim 25 feet on the surface, stop, turn sharply, resume swimming as before, and return to starting place.

Who can administer the test outside of camp?

The swim classification test is done at a unit level should be conducted by one of the following council-approved resource people: Aquatics Instructor, BSA; Cub Scout Aquatics Supervisor; BSA Lifeguard; certified lifeguard; swimming instructor; or swim coach. When the unit goes to a summer camp, each individual may be issued a buddy tag under the direction of the aquatics program director for use at the camp. **The swim Check Administrator MUST be approved before the test is administered.**

Reasons for not Passing the Test

A successful Scouting activity is accomplished only by carefully planning the activity. The BSA swim test is one tool in planning a successful and safe aquatics activity. The BSA has identified several reasons for a Scout or Scouter to not successfully complete the BSA swim test.

The following are reasons a Scout or Scouter **WILL NOT** pass the BSA swim test:

- Underwater swimming
- Dog paddling
- Resting in the middle of the test
- Treading water and not maintaining a forward motion
- Not floating at the end of the test
- Swimming too fast and appearing to be too tired at the end of the test

Safe Swim Defense and Safety Afloat

All eight points of the Safe Swim Defense and all nine points of Safety Afloat must be followed at all times when including aquatics activities in the unit's activities.

The eight points of Safe Swim Defense include: Qualified Supervision; Physical Fitness; Safe Area; Lifeguards on Duty; Lookout; Ability Groups; Buddy System; Discipline

The nine points of Safety Afloat include: Qualified Supervision; Physical Fitness; Swimming Ability; Personal Floatation Equipment; Buddy System; Skill Proficiency; Planning; Equipment; Discipline.
